

ASSUMPTION OF RISK IN PARAGLIDING, INFORMED CONSENT and RELEASE OF LIABILITY

Paragliding is a risky activity, which may cause serious injuries and even death. Risks come mainly from flying in invisible air with unpredictable winds and random turbulence, but also from the inherited nature of paragliding itself, equipment and pilot's fatigue, negligence, human error, etc. Accidents can happen at any time, during takeoff, flying, landing, before or after flight.

I understand that paragliding can be extremely dangerous, there is no insurance or warranty, but I still want to participate in a paragliding flight with my own free will.

I understand that a paragliding accident can harm directly and indirectly other people, including my heirs and relatives.

I release of liability the pilot, paragliding organizer, SKYNOMAD Ltd., driver, assistants and staff. If I suffer injury or loss of any sort, I agree not to sue or start any other type of legal action against anyone involved in the paragliding flight.

I am physically and mentally fit. I am not under influence of alcohol, drugs or another person. I will follow the instructions of my pilot.

I have read this release of liability document and I fully understand its contents and meaning, and I sign it of my own free will.
